SUMMARY

Multidisciplinary Educator, Product Leader, and Counselling Psychologist with 8+ years of experience spanning AI education, data analytics training, SaaS and ERP product management, and psychological counselling. Co-founder of RiseLabs Foundation, delivering AI learning to school students across multiple countries. Certified in Counselling and Coaching Psychology (MDCC, 98.3%), with hands-on experience supporting 300+ individuals through counselling and cognitive therapies. Co-author of a machine learning research paper formally presented before PETRONAS, one of the world's leading oil and gas corporations. Trained and mentored across leading universities in Malaysia including Xiamen University Malaysia, Sunway University, and IIUM. Experienced across India, Malaysia, Singapore, and Saudi Arabia in technology education, product delivery, and community development.

TEACHING EXPERIENCE

Co-Founder & AI Educator

2024 – Present

The RiseLabs Foundation

Global (Remote)

- Co-founded RiseLabs Foundation, a global AI education initiative delivering structured hands-on learning to school students (Grades 7–12) across multiple countries.
- Designed and delivered curriculum covering AI fundamentals, machine learning, prompt engineering, computer vision basics, and real-world project-based learning modules.
- Guided students through capstone projects applying AI to healthcare, agriculture, environment, and social impact; mentored participants for national and international AI competitions.
- Co-developed age-appropriate AI learning pathways with international educators, fostering curiosity-driven STEM education from secondary level.

Teaching Assistant & Data Analytics Trainer

2023 – 2024

XMUM, Sunway University & IIUM — Mentored by Dr. Abdul Khaliq Rasheed

Kuala Lumpur, Malaysia

- Worked as Teaching Assistant and Trainer across Dr. Abdul Khaliq Rasheed's academic network spanning Xiamen University Malaysia (XMUM), Sunway University, and IIUM, supported through the Beebag–Sunway iLabs partnership.
- Dr. Rasheed (Asst. Professor, XMUM; former researcher, Sunway University GAMRG) served as entrepreneurial coach and academic mentor throughout this engagement.
- Delivered full data analytics training stack covering: Python (Pandas, NumPy, Scikit-learn), SQL and database querying, Data Visualisation (Matplotlib, Seaborn, Power BI, Tableau), Statistical Analysis and Hypothesis Testing, Machine Learning fundamentals (Regression, Classification, Clustering), Excel for Data Analytics, Business Intelligence and Dashboard Design, ETL pipelines and data cleaning, and Exploratory Data Analysis (EDA).
- Acted as Placement Coach: portfolio building, technical interview preparation, and industry presentation skills for students entering data analyst roles.
- Mentored student capstone projects solving real business challenges in retail, finance, and social sectors across Malaysia.

Founder & Lead Facilitator

2020 – 2022

Indworks Learning

Chennai, Tamil Nadu

- Founded Indworks Learning, conducting workshops and Faculty Development Programmes (FDPs) for engineering colleges across Tamil Nadu; reached 2000+ students and faculty.
- Delivered programmes on Emerging Technologies, AI and ML fundamentals, Python, Data Structures, IoT, Cloud Computing, Agile methodologies, and career readiness.
- Designed FDP sessions enabling faculty to integrate industry-relevant tools into undergraduate curriculum; partnered with college departments for curriculum-linked industry workshops.

Educator — UG Engineering Subjects

2016 – 2019

Unacademy

Remote / Online

- Developed and delivered teaching plans for B.E students under Anna University syllabus covering core CS Engineering subjects.
- Subjects: Data Structures & Algorithms, OOP (Java, C++), DBMS (SQL, Normalisation, ER Modelling), Operating Systems, Computer Networks (OSI, TCP/IP, Routing, Security), Software Engineering (SDLC, Agile, UML), Engineering Mathematics (Probability, Statistics, Discrete Maths, Linear Algebra), and Digital Logic & Microprocessors.
- Produced video lessons, structured notes, and practice question banks enabling self-paced learning nationally.

AI Volunteer Coach & Regional Ambassador

2016 – 2018

School of AI, India

Chennai, Tamil Nadu

- Volunteered as AI Coach and Regional Ambassador for School of AI, an open global initiative making Artificial Intelligence education freely accessible.
- Organised AI learning sessions, study groups, and hands-on coding workshops for engineering students and early-career professionals; built a local learner community across Tamil Nadu.
- Introduced participants to Python, foundational ML, neural networks, and the global AI research community; coordinated with the School of AI international network.

COUNSELLING PRACTICE

Counsellor & Cognitive Behavioural Practitioner <i>Independent Practice</i>	2022 – Present <i>Tamil Nadu / Remote</i>
• Certified Master Diploma holder in Counselling and Coaching Psychology (MDCC, National Psychology Institute, 98.3%), specialising in Cognitive Behavioural Therapy (CBT), coaching frameworks, and psychological support. • Attended and supported 300+ individuals across one-on-one sessions, group therapy formats, and structured cognitive intervention programmes. • Provided counselling on academic stress, career anxiety, interpersonal challenges, emotional regulation, and self-esteem using evidence-based CBT and solution-focused coaching approaches. • Applied positive psychology frameworks and motivational interviewing techniques to support resilience building and behavioural change across student and professional demographics.	

INDUSTRY EXPERIENCE

Strategic SaaS Advisor <i>CodaSol</i>	2023 – 2024 <i>Singapore (Remote)</i>
• Engaged as Strategic SaaS Advisor for CodaSol (Singapore), contributing to the product vision and go-to-market strategy for Prosol — an enterprise data intelligence platform built on PostgreSQL and pgvector. • Produced comprehensive enterprise-grade technical documentation for Prosol 2.0 (codename: Raptor), structured for handover to the design and engineering team, covering architecture decisions, API contracts, module specifications, and user journey maps. • Defined product positioning for Prosol as a multi-tenant SaaS platform with vector search and AI-powered analytics capabilities, advising on pricing tiers, enterprise onboarding flows, and competitive differentiation in the BI and data platform market. • Advised on infrastructure strategy (PostgreSQL + pgvector integration), product scalability roadmap, and feature prioritisation for the Raptor release across data ingestion, search, and reporting modules. • Collaborated with the founding team on sales enablement materials, client pitch decks, and stakeholder documentation to support early enterprise client acquisition.	
Senior Product Manager — AI & ERP Systems <i>Lyncs</i>	Dec 2024 – Jan 2026 <i>Riyadh, Saudi Arabia (Remote)</i>
• Led roadmap for 4 ERP modules (Pulse, ProjeX, Batch, Assets), boosting feature adoption by 47% across 120+ enterprise clients; reduced deployment errors by 60% via Terraform and CI/CD integration. • Improved uptime to 99.8%, reduced release times by 35%, and increased sprint velocity by 25% through structured Agile delivery and DevOps automation.	
Social Media & Brand Growth Manager <i>Enwan AlKhawa</i>	Dec 2024 – Jan 2026 <i>Riyadh, Saudi Arabia</i>
• Managed Instagram, Facebook, and TikTok for Enwan AlKhawa; achieved 35% increase in story reach and 22% profile visit growth through targeted Meta campaigns and structured content calendars. • Correlated social engagement KPIs with in-store footfall patterns, enabling data-driven decisions on content timing and campaign spend allocation.	
Digital Communications Consultant <i>NNG Group</i>	2022 – 2024 <i>Malaysia (Remote)</i>
• Designed multilingual digital outreach campaigns for Tamil communities across Kuala Lumpur, Selangor, and Penang; produced 40+ Tamil-language reels, carousels, and educational content pieces. • Built full-funnel Meta ad architecture (Custom Audiences, Lookalike Audiences, pixel tracking, A/B testing); structured 80+ hashtag taxonomy and knowledge panels; achieved 2.4x awareness ROAS and 32% CPM reduction. • Deployed real-time sentiment monitoring via Meta Insights; pivoted messaging strategy mid-campaign improving positive sentiment ratio from 61% to 84%.	
Product Growth Manager — Social & Digital <i>The Coffee Address</i>	2023 – 2024 <i>Remote (India)</i>
• Managed social media across 200+ outlets; grew following by 45%; orchestrated IoT analytics rollout improving operational efficiency by 38%; improved NPS from 62 to 81. • Prioritised POS and automation features improving system responsiveness by 50%; reduced cross-team integration time by 45%.	
Product Owner — Healthcare SaaS <i>PioneerSoft</i>	2022 – 2023 <i>Remote</i>
• Cut patient onboarding time by 70% through automated workflows; achieved 100% HIPAA compliance; delivered 5+ major releases with zero critical bugs. • Scaled backend via Terraform to handle 3x load with zero downtime; improved QA traceability by 40%.	
Product Manager (Strategy) — FMCG Analytics <i>Beebag, Malaysia</i>	Mar 2021 – Mar 2023 <i>Hybrid · Part-Time</i>

- Drove product from MVP to scalable multi-tenant solution; increased monthly active usage by 42%, customer retention by 25%, and B2B pilot conversions by 20%.
- Reduced delivery uncertainty by 30% through structured PRDs, user journeys, and KPI dashboards; improved roadmap execution efficiency by 35%.

Product Developer / BI Engineer

Lumel (Inforiver, xViz, BI Hub)

2021 – 2022

Chennai, India

- Delivered BI Hub solutions for Coca-Cola, Duracell, and Harvard Medical School achieving 94% client satisfaction; supported GTM strategy aiding 3 enterprise deals worth \$1M+.
- Built 200+ automated tests cutting production bugs by 60%; contributed to 4x increase in Inforiver (Power BI add-on) report generation speed.

RESEARCH & KEY PROJECTS

Pore Pressure Prediction Using ML — Well Logs & Seismic Data | *Co-Authored*

2020 – 2021

- Co-authored *Pore Pressure Prediction Based on Conventional Well Logs and Seismic Data Using an Advanced Machine Learning Approach* with Dr. Z A Amjath; formally presented before PETRONAS — one of the world's foremost integrated oil and gas corporations.
- Independently trained the dataset end-to-end: data preprocessing, feature engineering, missing value treatment, and model training pipelines.
- Applied ensemble methods and regression models to predict subsurface pore pressure, contributing to safer drilling operations and reservoir characterisation.

Prosol 2.0 (Raptor) — Enterprise Data Intelligence Platform | *CodaSol, Singapore*

2023 – 2024

- Produced enterprise-grade technical documentation for Prosol 2.0 covering architecture decisions, API contracts, module specifications, and user journey maps for handover to design and engineering teams.
- Defined SaaS product positioning, pricing tiers, multi-tenant onboarding flows, and AI-powered analytics feature roadmap using PostgreSQL and pgvector.

RiseLabs — Global AI Education Programme | *Grades 7–12, Multiple Countries*

2024 – Present

- Designed modular AI curriculum (Python, ML, neural networks, computer vision, AI ethics) delivered to school students across multiple countries; built project-based learning pathways for real-world AI applications.

Data Analytics Coaching Academy | *XMUM, Sunway University, IIUM, Malaysia*

2023 – 2024

- Developed and delivered end-to-end data analytics training for young entrepreneurs; produced structured materials and capstone frameworks used across two Malaysian universities with measurable placement outcomes.

Indworks Learning — FDP & Workshop Programme | *2000+ Students, Tamil Nadu*

2020 – 2022

- Designed and delivered 15+ workshops and Faculty Development Programmes across engineering colleges; impacted 2000+ students and faculty with industry-aligned technology training.

Lyncs ERP — AI-Driven Modules: Pulse, ProjeX, Batch, Assets

Dec 2024 – Jan 2026

- Led product roadmap for 4 enterprise ERP modules serving 120+ clients; achieved 47% feature adoption growth, 99.8% uptime, and 60% reduction in deployment errors via CI/CD and Terraform.

WRITING & PUBLICATIONS

Research Paper — *Pore Pressure Prediction Based on Conventional Well Logs and Seismic Data Using an Advanced Machine Learning Approach* — Co-authored with Dr. Z A Amjath; presented before PETRONAS; dataset independently trained by author.

Academic Mentorship — Entrepreneurial and coaching journey guided by Dr. Abdul Khaliq Rasheed (Asst. Professor, Xiamen University Malaysia; former researcher, Sunway University GAMRG & IIUM).

Samarasam (Tamil Magazine) — Contributor on social issues, community affairs, and civic awareness.

Makkal Urimai — Articles on social movements, community development, and civic rights in Tamil Nadu.

Freelance Writing — Current affairs briefs, strategic communications, and editorial content for community leaders and public figures.

SKILLS

Teaching & Training: AI & ML Education, Data Analytics Training, Curriculum Design, Faculty Development Programmes (FDP), Placement Coaching, Workshop Facilitation, Online Teaching

Counselling & Psychology: Cognitive Behavioural Therapy (CBT), Coaching Psychology, Motivational Interviewing, Positive Psychology, Group Therapy, Solution-Focused Counselling, Psychoeducation

Product Management: Roadmapping, OKR Planning, Agile & Scrum, Backlog Management, User Research, GTM Strategy, KPI Design, Release Management, PRDs & User Journeys

Digital & Growth: Meta Ads (Custom/Lookalike Audiences, Pixel Tracking, A/B Testing), Social Media Strategy, Hashtag Taxonomy, Knowledge Panel Optimisation, Sentiment Analysis, Community Management

Technical: Python, SQL, Pandas, NumPy, Scikit-learn, Power BI, Tableau, PostgreSQL, pgvector, Terraform, CI/CD, DevOps, Docker, Git, Firebase, REST APIs, Mixpanel, Redash, Google Analytics

Tools: JIRA, Confluence, Figma, Notion, QuickSight, Meta Ads Manager, Meta Business Suite

EDUCATION

National Psychology Institute India (Remote)

Master Diploma in Counselling and Coaching Psychology (MDCC) — 98.3% *2022*

Harvard University — Online Platform (edX) Remote

Certificate in Artificial Intelligence — with Capstone Project 2023

- Covered machine learning, deep learning, NLP, and computer vision; Capstone on FMCG Data Analysis applying predictive modelling and classification algorithms to consumer goods sales forecasting.

Anna University Chennai, India

Bachelor of Engineering in Computer Science and Engineering (CGPA: 7.5) *2016 – 2020*
